

STUDENT ASSESSMENT REPORT
Notice of Assessment Results

Candidate: Harini Benedicta A	Assessment Date: 7/28/2026
Candidate ID: S001	Class / Section: 10-A
Overall Score: 70/100	Result: Meets Expectations

Congratulations! Harini Benedicta A has completed this assessment with an overall score of 70/100, meeting expectations.

This assessment is scored on a scale of 0 to 100, combining subject scores, cohort percentile, and attendance. A score of 70 or above is considered as meeting expectations.

Harini has shown consistent improvement across core subjects this term, with particularly strong performance in Mathematics and Science.

This report is intended for the student, parents/guardians, and assigned faculty only. For questions about these results, please contact the academic office.

Given strong quantitative skills, Harini may enjoy exploring engineering or data-science-oriented career paths.

Thank you,
Sunrise Public School

STUDENT ASSESSMENT REPORT
Breakdown of Assessment Results

The table below details performance across each subject area assessed. Since subjects may carry different difficulty and weighting, this breakdown highlights relative strengths and areas for improvement rather than being read in isolation.

Meets Expectations: performance at or above 70/100, in line with what's expected of a student progressing well in this subject.

Needs Improvement: performance below 70/100, indicating this subject would benefit from additional focus.

Subject	Score (%)	Needs Improvement	Meets Expectations
Mathematics	88.0		
Science	84.0		
English	76.0		
Social Studies	55.0		
Computer Science	48.0		

Disclaimer: overall results are calculated using the complete set of subject scores. Subject-level results are provided for general feedback only and are less reliable than the overall score; they should not be used alone to guide future performance decisions.

STUDENT ASSESSMENT REPORT

Personalized Insights

KEY STRENGTHS

- Excellent problem-solving skills in Mathematics
- Strong grasp of scientific concepts
- Consistent class participation

IMPROVEMENT AREAS

- Social Studies requires more attention to detail
- Computer Science fundamentals need reinforcement

RECOMMENDATIONS

- Schedule weekly Computer Science practice sessions
- Use visual aids for Social Studies revision
- Continue advanced Mathematics enrichment

OVERALL INSIGHT

A well-rounded student with clear potential in STEM subjects, needing targeted support in two areas.
